GB3VHF closedown new moves by the RSGB
Chris, G0FDZ, did receive a letter from the GM at RSGB HQ stating
that the Board has asked him to enter into discussions with the site
owner, with regard to seeking the possibility of a more realistic
site rental for GB3VHF. This is good news indeed and I have been
asked that until discussions are completed that I keep GB3VHF on
the air. This I am happy to do and I am grateful that the Board has
intervened on this matter. Have a look at MMMonVHF FORUM:
http://www.mmmonvhf.de/minibb/index.php?action=vthread&forum=8&topic=50&page=0#msg95
SOURCE: tnx for input to MMMonVHF from Ian, G0AFH and David, G4DHF

Hello! Mike has put together some thoughts about his recent EME
DXpedition to P29, and I have put them up on my website so you can
read about his adventure: www.bigskyspaces.com/w7gj/P29NOTES.doc
Mike did a great job under very adverse circumstances. He was
stronger here on 6m EME than he was on 2m, but I was very pleased
to contact him on both bands. I can't imagine how he had the energy
to single handedly undertake EME on 2 bands at once! I think Mike
needs a vacation now! Thanks for sharing the notes about the trip
with us, Mike! VY 73, Lance

SPORADIC E in the southern hemisphere
As you might have been seen in past weeks we did build up a new
SPORADIC E Service page as well for the southern hemisphere where
the summer (and so sporadic e) will occure hopefully soon. PLEASE
have a look at: http://www.mmmonvhf.de/es_s.php and use the input
at these page for an opening in the SOUTH. The switch between the
both areas are made in the drop down menue at PROPAGATION...
MMMonVHF is trying to give an overview of Sporadic E on other
continents than Europe and is asking to send reports of Sporadic E
openings that occured on 144 MHz worldwide!

During the upcoming ARRL event PI9CAM will be active again! 25 m Dwingeloo dish JO32ET See www.camras.nl 23 cm: 65 W @ feed 70 cm: 300 W @ feed QRV on SSB, CW and JT. There is a small chance we will be on 2 m on saturday night... The 2 m antennas have to be mounted during daytime on saturday. So we need good weather. On friday evening we will start testing. Then we will use the HB9Q EME logger to try with small stations. During the contest no logger activity. We are unassisted. We hope to be on all three moon passes. Hope to work you all! 73 from the PI9CAM team Jan PA3FXB SOURCE: Jan, PA3FXB via MoonNet

Chris, SP7DCS, plan to be qrv during the contest on 2m, 70cm and 23cm CW random unassisted. Last weeks I was working to get 70cm system running. My 4 yagi array is up again with repaired preamp and TX line. Old 250W PA has been retired and I want to try new 400W SSPA for the first time. I do hope it will work as I had no opportunity to test everything together before. I will change bands depending on activity level and conditions, but as I have TVI problems on 70cm I will on this band mostly during the night. SOURCE: Chris SP7DCS via MoonNet

***

Serge, VE1KG, will be qrv during the 2008 ARRL EME Competition. I will be QRV this weekend on & off for the contest WSJT & CW.My experience with WSJT is somewhat suspect but i will try by best. running 4X17M2 400w WSJT & 750 CW . On CW i will only respond to cq calls. see you soon. Serge VE1KG FN84 Nova scotia SOURCE: Serge VE1KG via MoonNet

VHF/UHF Field Day - VK4OE/4
Just a short note to describe my proposed operations for this
weekend. Weather permitting, it's the same sequence of places and
times that I have often used in the past. On Saturday evening I'll
be operating from Howell's Knob near Maleny (QG63JE) and my second
location on Sunday morning will be Mt Gravatt in Brisbane (QG62MK).
I will have equipment operational for 50, 144, 432, 1296, 2301,
2403, 10368 and 47088 MHz, as well as the usual FM simplex
frequencies. SOURCE: Doug, VK4OE, via VK-VHF Reflector

HA0HW, Laci, updates us on the Hungarian duo heading to the
Republic of Palau later this month. HA7TM, Tibi, and HA5AO,
Pista, will operate from Koror Island and will be QRV for 12
days as T88CJ and T88CI respectively. They will be operating
mostly on CW with a focus on Europe on 1.8 through 50 MHz from
November 21st. through December 3rd. They both have Web pages
www.ha7tm.hu/t88/ and http://ha5ao.novolab.hu/dxpeds.html.
QSL via their home calls either direct or via the HA QSL bureau.

The VHF-DX-Portal MMMonVHF - Newsletter Credits & Info
****

Our Newsletter is compiled from the input of the USER of the VHF-DX-Portal MMMonVHF as well by a lot of free usable HF-V-U-SHF-Info-Sources and chats like ON4KST-, N0UK-, RU-VHF-DX-Net, EA-V-U-SHF-Chat and others...

*** Many thanks to all USER who send us info and news ***

Wherever we found the info we always indicate the source of the info.
If you get knowledge of an expedition, which is NOT listed at our VHF-DX-Portal MMMonVHF or if you have additional info for an expedition, PLEASE be so kind and send us this info at http://www.mmmonvhf.de/newsuser.php or http://www.mmmonvhf.de/kontact.php

The MMMonVHF-Team is always trying to spread any expedition info as much up-to-date and reliable as possible and as long as the info does not violate with our MMMonVHF-Policy.

Have a lot of fun and enjoy MMMonVHF!
